

# HOTEL NIKKO SAN FRANCISCO

In San Francisco, California

Hotel Nikko, located steps from Union Square in the heart of San Francisco, blends urban convenience with Eastern charm for a luxurious boutique hotel experience. Surrounded by the bustle of the city and its world-class dining, entertainment, and culture, Hotel Nikko San Francisco offers guests the ultimate in personal service and the fine art of hospitality so vacationers and business travelers may escape the day's stress with ease.

Hotel Nikko's sprawling lobby, filled with sofas, armchairs, and hanging art, twists and turns like intricate calligraphy strokes to greet guests upon arrival. The distinct Asian influence abounds in its distinctive design aesthetics and product selection in the recently renovated rooms.

Hotel Nikko reopened in March 2017, following a \$60 million renovation that brought numerous upgrades to the majority of its guest rooms, common areas, and meeting spaces. Of note, many of its 511 rooms and 22 suites (total of 533 rooms) offer TOTO's world-renowned ultra-high-efficiency toilets. And in select rooms, TOTO WASHLET® bidet seats, which provide warm seats and warm water cleansing, offer guests a spa-like experience. In addition, many rooms contain TOTO's GR faucet, cylindrical hand shower, and thermostatic mixing valve, which provides meticulous water temperature control. While toilets and showers often are taken for granted in hotel rooms, at Hotel Nikko, this attention to detail provides guests with a luxurious, clean, and comfortable experience in every aspect of the bathroom and beyond.
