

# LE MERIDIEN TAICHUNG

In Taichung

Set in the heart of Central District, the city's transportation hub and old town that has expanded substantially in recent years, Le Méridien Taichung boasts a strategic location with proximity to some of Taichung's sites of interest. The area features an abundance of Baroque architecture, Japanese-style residences, and old structures indicative of a past era of wealth and prosperity. Guests can easily explore the many historic places in the neighbourhood, including Taichung Old Railway Station, Taichung Criminal Affairs Martial Arts Hall, Taichung Prefectural Hall, Miyahara, Taichung Shiyakusho, and Zhongshan Green Bridge. The new hotel is 20 mins drive from High Speed Rail Station, providing easy access to other cities in Taiwan. The distinct, timeless chic design at the hotel is inspired by the building's round-shaped exterior. Circular elements can be seen throughout the hotel, such as interior mirrors, lights, tables, and couches. It also reflects the philosophical thinking of the East in pursuit of perfection.
