

THE WARRIOR

In Sioux City, Iowa

Constructed during "the new era" in 1930, The Warrior Hotel has been a fixture in the skyline of Sioux City, Iowa, for over ninety years. The Warrior's iconic past intersects with modern state-of-the-art luxury. It is just steps away from the area's thriving entertainment district and local attractions like the Orpheum Theatre and Tyson Event Center.

After a complete renovation in 2020 by Restoration Saint Louis, this architectural landmark reimagines its Art Deco history with a rich palette, elegant furnishings, and refined details. A grand staircase and ornate architectural elements have been restored to their original glory and complement the consciously modern design trademarked "Hipstoric." In addition, the hotel has amazing amenities like a bowling alley and full-service spa. To top off its luxurious experience, each of the 148 rooms, including 11 suites, contains a TOTO WASHLET®+ with a high-tech bidet toilet with warm seat and warm-water cleansing, giving every guest a spa-like experience.

A glamorous and distinct Midwestern destination, The Warrior embraces its celebrated past to create an inspired 21st-century experience that is "Simply Sioux City™."
