

Expresses Support for Taskforce on Nature-related Financial Disclosures (TNFD) Recommendations

Disclosure of analysis and countermeasures focusing on “water in sanitary ware production”

TOTO LTD. (Headquartered in Fukuoka Prefecture, Japan; President: Shinya Tamura) has expressed its support for the recommendations of the Taskforce on Nature-related Financial Disclosures (hereinafter "TNFD" *1) and registered as a "TNFD Adopter" *2, while commencing information disclosure in line with the TNFD framework.

Inheriting the founder's strong desire to "provide a healthy and civilized way of life," the TOTO Group is promoting sustainability management under its "Shared Value Creation Strategy TOTO WILL2030," positioning the "Environment" as one of its key management issues (materiality). Recognizing that its business activities both depend on and impact natural capital, TOTO has continuously advanced initiatives and information disclosure regarding natural capital. In this latest initiative, utilizing the "LEAP Approach" *3 recommended by the TNFD, TOTO analyzed the nature-related risks and opportunities and disclosed new response measures, focusing on "water in sanitary ware production," on which TOTO's business activities depend significantly.

The TOTO Group will continue to advance highly transparent information disclosure to its stakeholders, thereby contributing to the conservation of natural capital through its business activities and the realization of a sustainable society.

Taskforce on Nature-related Financial Disclosures

*1 TNFD (Taskforce on Nature-related Financial Disclosures): An international initiative established to build a framework for private companies and financial institutions to appropriately assess and disclose risks and opportunities related to natural capital and biodiversity. <https://tnfd.global/>

*2 TNFD Adopter: Companies and organizations that have declared their intention to make disclosures in line with the TNFD recommendations and registered on the TNFD website. <https://tnfd.global/engage/tnfd-adopters-list/>

*3 LEAP Approach: An integrated process recommended by the TNFD for assessing nature-related dependencies, impacts, risks, and opportunities. It consists of four steps: "Locate," "Evaluate," "Assess," and "Prepare."

Shared Value Creation Strategy TOTO WILL2030

Cleanliness and Comfort; Wellness

Environment

Relationships

"The Shared Value Creation Strategy, TOTO WILL 2030 aims to simultaneously realize environmental, social and economic value. In it, we have established "Cleanliness, Comfort and Wellness," "Environment," and "Relationships" as materiality issues, and are working to strengthen sustainability management and contribute to the achievement of the United Nations' Sustainable Development Goals (SDGs)."
