

MAISON ALBAR-IMPERATOR HOTEL

In Nîmes

The graceful Emperor Hotel in the heart of Nîmes is celebrating its grand reopening thanks to the Centaurus Group and its Maison Albar Hotels Collection. The award-winning hotel group opened the Emperor Hotel after over two years of renovation work. This refuge for rest and relaxation is located just a few steps from the amphitheatre, Maison Carré and Tour Magne in Nîmes.

The hotel has three restaurant spaces designed by Pierre Gagnaire. French-Argentinian architect Marcelo Joulia transformed the hotel in collaboration with architecture and design agency Atelier COS. Stunningly updated, with gorgeous architectural accents, the five-star Emperor Hotel exudes French charm and joie de vivre – for an extraordinary stay.

The Emperor Hotel has 53 rooms and 8 luxurious suites, all with a lovely view of the hotel's garden. The spacious rooms comfortably accommodate hotel guests, even large groups.

A stay in this five-star hotel promises total privacy, complete comfort and a unique wellness-focused vibe – even in the bathrooms. This motivated hotel management to have WASHLET – TOTO's high-end shower toilets – models installed in the bathrooms to give guests the luxurious experience that they expect.
